

### **REMARKS**

Responsive to the Office Action mailed December 27, 2007, on the above-referenced patent application, Applicants respectfully request reconsideration of the application. Claims 1, 4 and 6 were amended. Claims 2, 3, 5, 7, 12-16 were canceled. New claims 17-21 were added. Claims 1, 4, 6, 8-11 and 17-21 are pending.

### **The Office Action**

The Examiner objected to claim 5 as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form with the limitations of the intervening claims. Claim 1 was amended to include the limitations of claims 2 and 5 and is therefore patentable, as are claims 4-6 and 8-11 depending therefrom.

The Examiner objected to claim 15 as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form with the limitations of the intervening claims. New claim 17 was added including all of the limitations of claims 15, 5, 2 and 1 and is therefore patentable.

New claim 18 claiming a system for a wireless communications network to automatically suggest subscriber service changes was added. This claimed system includes processing node in the wireless network capable for performing the method steps of claims 1, 2 and 5 the examiner indicated as being patentable. Support for this claim can be found in Specification in paragraphs [001], [013]-[018] and others.

### CONCLUSION

For the reasons detailed above, it is respectfully submitted all claims remaining in the application (Claims 1, 4, 6, 8-11 and 17-21) are now in condition for allowance. The foregoing comments do not require unnecessary additional search or examination.

In the event the Examiner considers personal contact advantageous to the disposition of this case, he/she is hereby authorized to telephone Patrick D. Floyd, at (216) 861-5582.

Respectfully submitted,

Fay Sharpe LLP
